ABOUT ME

I am a B.Tech 3rd-year student at VIT-AP University, steadily advancing my technical expertise. With a strong foundation in C, C++, Java, and Data Structures & Algorithms (DSA) with Java, I have developed solid programming and problem-solving skills. Now, I am focusing on MERN stack web development (MongoDB, Express.js, React, Node.js) to deepen my understanding of full-stack application development. My structured learning approach and dedication to mastering both fundamental and advanced concepts set me on a promising path in the field. As I continue refining my skills, my ability to build scalable and efficient applications will help me excel in modern web development.

EDUCATION

2021 - 2023
Sri Chaitanya College
Narasaraopet

INTERMEDIATE(11th & 12th)
MPC - Student
Percentage - 95.8%

2020 - 2021
MBHS High School
Narasaraopet

Secondary School Education(SSC)
SSC Syllabus
Percentage - 98%

PROJECTS

SMART PLANT WATERING ROBOT:

- Designed and built an automated plant watering system using Arduino, soil moisture sensors, relay modules, and a water pump.
- Developed embedded C code to monitor soil moisture and control irrigation based on real-time sensor data.
- Integrated hardware components on a custom housing, ensuring reliable operation and water-efficient irrigation.
- Demonstrated strong skills in circuit design, programming, and embedded systems through successful project execution.

SKILLS

- C
- JAVA
- C++
- Leadership
- DSA With Java
- Problem Solving
- Communication
- Team Work

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Telugu, Urdu
- **Certifications:** Wadhwani Foundation IGNITE 3.4 Certification
